The election of T. B. Pannell, of
Greenville, as State Central Commit-
teeman in the Third district is be-
ing contested on the ground that he
is ineligible by reason of his posi-
tion as private Secretary to Con-

claiming that he was elected.

The result of the canvass of the
votes of the recent Nebraska primar-
y elections on members of the two
houses of the legislature shows that
the Oregon plan will be almost cer-
tainly carried out in the election of
a United States Senator to succeed
Senator Burkett, regardless of the
political complexion of the next leg-
islature.

Juan Amer, editor of a weekly Chan-
tecler, started at Havana Friday,
was shot and killed the day after his
first appearance by Jose Pennino, a
Liberal candidate for city council-
man in Havana. The cause of the
shooting was a scurrilous article in
the Chantecler concerning a young
woman prominent in society to whom
Pennino is attentive. Pennino was
arrested.

New Orleans is going after the
Parana Exposition in dead hard
earnest. The General Assembly of
Louisiana was called in extraor-
dinary session by Governor Sanders,
and by an almost unanimous vote
(one negative in the Senate and
three in the House), adopted an en-
actment under which is guaranteed
\$6,500,000 in Exposition Bonds, se-
cured by a state-wide tax. In ad-
dition thereto, New Orleans business
interests have subscribed \$1,350,000,
which gives to date a total of \$7,850,-
000 as a guarantee of good faith and
ability to finance the Exposition. A
magazine called "The Logical Point"
has also been started to advocate
the claims of New Orleans and in-
duce Congress to act.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell
and completely derange the whole system when
entering it through the mucous services. Such
articles should never be used except on prescrip-
tions from reputable physicians, as the damage
they will do is ten fold to the good you can pos-
sibly derive from them. Hall's Catarrh Cure,
manufactured by F. J. Cheney & Co., Toledo, O.,
contains no mercury, and is taken internally,
acting directly upon the blood and mucous sur-
faces of the system. In buying Hall's Catarrh

TO VOTE FOR DEAD MAN

Only Recourse For LaFollette
Followers.

Madison, Wis., Sept. 5.—A trou-
blesome situation is likely to result
from the death yesterday of Frank
T. Tucker, second assistant attorney
general and the LaFollette candidate
for the nomination for attorney-gen-
eral.

The other two candidates are
classed as anti LaFollette Republi-
cans and the head of the LaFollette
campaign committee has sent out
word to the LaFollette precinct
leaders to pass the word to LaFol-
lette men to vote for the dead man.

It is too late to change the ballots
and the only recourse of the LaFol-
lette men will be the election of
Tucker in the primary. Then, the
nomination completed, the new state
committee which the LaFollette men
say they will dominate, will select a
LaFollette man to fill the vacancy on
the party ticket.

The anti LaFollette men, however,
do not believe that the election of a
dead man can stand in the courts.

CLEAR FIELD.

Republicans of First District
Have no Candidate.

Paducah, Ky., Sept. 2.—The First
district Republican congressional
committee met here this afternoon
and decided not to nominate a can-
didate for Congress in opposition to
Ollie M. James, who is the Demo-
cratic nominee for re-election.
However, the committee decided to
act with the remaining five counties
in the Appellate Court. The Appel-
late committee will meet next Tues-
day either at Princeton or Paducah.

NINE APPOINTMENTS.

Many Vacancies Exist In
Midshipmen.

Washington, Sept. 4.—The Naval
Department to-day gave Naval Aca-
demy statistics which show there are
out of 907 authorized midshipmen
over 400 vacancies. There will be
opportunities for Senators and Rep-
resentatives to make appointments
for the new fourth class. Of 589
candidates recently examined only
199 passed. Vacancies at Annapolis
to be filled from Kentucky are as
follows:

By Senators Paynter and Bradley,
one each. From the First congres-
sional district, two, and from the
Second, Third, Fifth, Sixth and
Tenth one each.

COAL COMPANY'S

Team Struck by Passenger
Train and Both Horses
Were Killed.

DRIVER WAS INJURED.

Dixie Flyer Crashes Into
Coal Wagon at Sixth
Street.

An empty coal wagon, being driven
by Shelby Webber, col., and owned
by the Davis-Hester-Winn Co., was
struck by L. & N. passenger train,
south bound, known as the Dixie
Flyer, yesterday morning about 10
o'clock, and both horses were killed
and the driver injured about the
head and face.

Webber was in the act of crossing
the track at Sixth street, going west,
when the accident occurred. Some-
one who had just crossed the track,
called to Webber to stop, as a train
was approaching and just as he
started to turn around the train
came upon him. The outfit was
knocked about twenty feet and both
horses were killed. Webber was
thrown to the ground and was hit
either by the wagon or the pilot and
considerably cut and bruised. He
was able to walk to the Seventh
street crossing, where he was placed
in a buggy and taken to his home on
Hays street and a physician sum-
moned. It is not thought that his
injuries will result fatally. The
wagon tongue was broken off and
the vehicle otherwise damaged.

RETURN IN STEERAGE.

New York, Sept. 4.—Statistics
compiled at Ellis Island assert that
many thousand Americans who went
abroad this summer for European
vacations, found the expense of
foreign travel too much for their
pocketbooks and were compelled to
return by steerage.

On an average, 1,000 American
citizens have arrived weekly in New
York from European ports in the
steerage of the various Transatlantic
liners this summer. The official
figures for August show that 4,013
Americans arrived at New York as
third class or steerage passengers
during the past month. Vessels
from British ports brought most of
them, the Mauretania, on the voy-
age that ended at New York last
week, alone bringing 325 Americans
in her steerage.

The explanation advanced at Ellis
Island for the large number of
Americans who are coming home in
the cheapest way, is that the pas-
sengers are "dead broke."

A small percentage, however, is
accounted for by the fact that many
persons who have to get home must
come steerage, owing to the crowd-
ed condition of the ships, or else
stay abroad until the rush is over
and cabin accommodations are avail-
able.

But most of the home-comers who
come back steerage are doing so,
according to the Ellis Island inspec-
tors, because that is the only kind
of ticket they are able to buy. They
went over first or second class, but
used up their funds in their travels,
and when the time came to come
back they had to take the cheap-
est passage.

Auto Fatality.

Mike Jones, a merchant, was killed
and four other occupants of his
touring car were injured, when the
machine turned a somersault on the
race course at Savannah, Ga.

Double Tragedy.

Louis and Kittie Perle, the latter
leading lady of the Manhattan Opera
Company, were drowned in Lake
Quinsigamond, in Massachusetts.

King Menelik.

King Menelik, of Abyssinia, is said
to have suffered another stroke of
apoplexy. His condition is said to
be grave.

Masked Bandits.

Masked bandits held up Bent Fow-
ler, a paymaster, near Hudson, N. Y.,
shot his driver dead, mortally
wounded Fowler and escaped with a
chest of pay envelopes containing
\$5,000.

Leaped From Train.

Miss Louise Ella Huffman, of
Painsville, O., committed suicide by
pushing herself through the window
of sleeping car on a fast train be-
tween Philadelphia and Pittsburg.

Cholera Rages.

Since the outbreak of the epide-
mic this year 133,601 cases of cholera
with 64,405 deaths in Russia have
been officially reported.

World's Second City.

Greater New York has a popula-
tion of 4,766,883 under the thirteenth
decennial census. While New
York City, according to the English
census returns of 1909, is still 2,682,-
857 souls behind London in the race
for the greatest city in the world,
she is so far ahead of the other
great cities of the globe that there
is little likelihood of any of them
catching her in many decades. The
census of 1909 showed Greater Lon-
don's population to be 7,429,740, as
against 6,581,372 in 1901. That New
York is slowly catching London is
shown by the fact that in eight years
London's increase was 343,363, while
that of New York for ten years was
1,329,681.

Paris, according to the census of
1906, was the third largest city on
earth with a population of 2,753,393,
while Tokio, under the census of
1908 was fourth with 2,136,079.
Berlin in 1906 had a population of
2,040,148.

Philadelphia's Growth.

Philadelphia's population is 1,549,-
008, an increase of 255,334, or 19.7
per cent. as compared with 1,293,674
in 1900.
